

### California Proposition 65

National Sugar Marketing (NSM) and its Member Partners take all reasonable steps to ensure regulatory compliance with federal and state regulations. Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted to require California to maintain and update a list of chemicals known to the state to cause cancer or reproductive toxicity. NSM ensures products manufactured and distributed do not contain any substances identified in CA Prop 65. Also, NSM and Partners review updates to this list to demonstrate continued compliance.
